Ahmed khalid kamal

MERN Stack Developer | React.js | Next.js | Node.js | MongoDB

kmalahmdkhald927@gmail.com | 01031571508 | linkedin | github | Portfolio | Military Service : completed

Profile

MERN Stack Developer with hands-on experience building scalable full-stack web applications using MongoDB, Express.js, React.js, Node.js (MERN Stack). Developed multiple production-ready systems including Educational Platforms, E-commerce applications, Pharmacy and Nursery Management Systems. Skilled in RESTful APIs, JWT Authentication, Redux Toolkit, Next.js, Responsive Design, and Performance Optimization

Education

Bachelor of Computer Science and Artificial Intelligence, Benha University — Sep 2020 – Jul 2024

Department: information system GPA: 3.3 / 4

Professional Experience

Web master — Jul 2024 – Aug 2024

- Maintained and optimized website performance and security
- Improved website responsiveness and overall system stability
- Assisted in debugging and enhancing client web applications

Freelance Full Stack Developer — Apr 2024 – present

- Delivered full-stack web applications for multiple clients
- Implemented responsive UI, backend optimization, and RESTful APIs
- Collaborated with clients to deliver scalable and maintainable solutions

Projects

Edumatek – Educational Platform

- Developed full-stack platform using React.js, Next.js, Node.js, Express.js, MongoDB
- Built RESTful APIs for courses, users, and admin management
- Implemented JWT authentication and role-based authorization
- Designed responsive UI using Tailwind CSS
- Optimized performance, improving page load speed by 30%

Kinder-Link – Nursery Management System

- Built full-stack management system for nursery operations
- Develope dashboards for students, teachers, and administration
- Integrated secure authentication and database management
- Scalable backend architecture using Express.js
- Reduced manual record-keeping by 40%

E-commerce Platform

- Developed online shopping system with authentication, cart, and payment integration
- Designed APIs and database schemas for product management
- Optimized frontend and API calls for faster user experience

Pharmacy inventory management system, Inventory & supplier management web application.

- Developed inventory and supplier management application
- Implemented CRUD operations and role-based access control
- Improved inventory tracking efficiency and reduced errors by 35%

Anime App

- Built REST API application using Node.js, Express.js
- Integrated external APIs and handled asynchronous data fetching

Skills

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, TypeScript

Backend: Node.js, Express.js, RESTful APIs, Authentication (JWT)

Database: MongoDB, MySQL

State Management: Redux Toolkit, React Query

Tools: Git, GitHub, Axios, Formik, Yup, Mongoose, Sequelize

Languages

Arabic — Native

English — Intermediate
